Town of Enfield, Connecticut Plan of Conservation & Development Community Survey

05-01-2009

Dear Enfield Resident:

We need your help developing the new Plan of Conservation and Development for the Town of Enfield. The Plan of Conservation and Development will define the community's vision for the future of Enfield. The vision will capture our community's identity and our relationship to neighboring communities, and shape the way Enfield will look and function over the next 20 years. The plan will address issues related to population changes, residential and business development, transportation and utility infrastructure, environmental protection, and facilities for recreation and other public services. The Plan of Conservation and Development is a critical tool to meet the community's needs, and your participation will affect the success of the plan.

We ask that you share your opinion about various issues in Enfield by taking a few minutes to answer the questions that follow. Please print and fill-out this survey form. When you have completed the survey, please return it to one of the following locations:

- Enfield Public Library- a box has been provided to the librarian to collect the survey
- Enfield Planning Department- simply drop off your survey at our office in Town Hall

We appreciate your time and efforts helping us plan for the future of Enfield. In addition to this survey, there will be a number of public forums throughout this planning process that will provide more opportunities for public input. We hope you will be able to attend these forums. Look for notices and advertisements in the local media and on the Town's website at http://www.enfield-ct.gov. To sign up for future email messages related to the Plan of Conservation and Development, please send a message to iginer@enfield.org.

Sincerely,

José Giner, Director Department of Planning and Zoning Town of Enfield, CT

Public Services I feel I am well informed about the Town's offices and services I feel I am satisfied with the following public services: 3 I am satisfied with the following public services:	Disagree	Strongly
1 I feel I am well informed about the Town's offices and services 2 Preserving quality of life is a priority of Town leaders	•	Disagree
2 Preserving quality of life is a priority of Town leaders		
1 3 I am saustied with the following public services:	1	
a Police		
b Fire		
c Ambulance		
d Road maintenance
